

BOARD MANUAL

SUBJECT: Investment Policy	NO.: 2-C-38
SECTION: Corporate Performance and Oversight	
APPROVED BY: Board of Directors	DATE: December 3, 2025

Policy

The Board of Cambridge Memorial Hospital (CMH) shall be authorized to make or receive any investments which the Board in its discretion considers advisable. The Board shall be permitted to invest pursuant to the *Ontario Trustee Act*, as amended from time to time, as follows:

- i) all monies given in trust to CMH for the use of the organization;
- ii) all monies not required for operating expenses; and
- iii) the Board may, in its discretion, retain investments not authorized by the *Trustee Act* which are given to CMH.

The primary objectives of these funds in order of priority are safety of principal (which include preserving as much of the purchasing power of the capital and income as possible from the eroding effects of inflation over the longer term), liquidity, and return on investment having regard to permissible investments. In all respects, maturity dates of investments must recognize the forecasted cash flow requirements of the organization.

Responsibilities:

The Board of CMH has assigned oversight of investment management for the Hospital to the Resources Committee.

The Resources Committee shall:

- Establish and amend the Investment Policy;
- Review this policy at least every 3 years;
- Review the status of such investments on an annual basis; and
- Be responsible for the delegation of any responsibility not specifically mentioned.

Return on Investments

The Hospital's objective is to generate a total investment return that results in enhanced yield versus short term rates, protecting the long-term purchasing power of capital, with sufficient liquidity to meet all CMH capital requirements as needed.

Excess funds, not required for operating and capital needs, shall be invested with the following investment objectives:

1. Capital preservation and growth through principal-protected investment options, including cash term deposits;
2. Maintenance of adequate liquidity to ensure availability of funds when needed by the Hospital; and
3. The exercise of the care, skill, diligence, and judgment of a prudent investor.

Risk Tolerance

Investment activities shall be undertaken in a manner designed to preserve capital.
