

Cambridge Memorial Hospital (CMH) is seeking a seventh **Full-Time General Surgeon** to join the team.

The current group includes surgeons with fellowship training in MIS/Foregut, Colorectal Surgery, and Breast/ Surgical Oncology. Fellowship training would be an asset but not a requirement. The successful candidate must be an RCPSC certified General Surgeon and licensed to practice in Ontario. Operating Room, Endoscopy and Minor Procedures time is shared equally amongst the group. Each surgeon provides 1 in 7 on-call coverage in an Acute Care Surgery model that includes two half-days per week of dedicated ACS OR time.

CMH is a busy 217-bed community hospital, with a tight-knit and collegial medical staff. A Capital Redevelopment Project was recently completed. A new wing including a state-of-the-art Operating Room, Emergency Department and Intensive Care Unit was built in 2020. The remaining inpatient units were completely refurbished in 2025. CMH features a high-volume Emergency Room, a closed ICU, RCPSC Anesthesia, an Oncology Clinic and a full complement of medical and surgical subspecialties. This is further supported by Laboratory and Diagnostic Imaging services, including CT, MRI, and 24/7 Radiology coverage. We are affiliated with the Waterloo Campus of the Michael G. DeGroot School of Medicine, McMaster University and regularly participate in teaching medical students and residents.

Cambridge is a family-friendly city located along the Grand River, in Waterloo Region. It features a historic downtown core, century homes and ample trails and outdoor activities, providing fantastic work-life balance. We are within about 1 hour of Toronto, London and Hamilton.

Interested candidates are asked to submit a letter of interest and up-to-date curriculum vitae to Dr. Lawrence Green, Chief of Surgery, via Nina Grealy in the Medical Affairs and Chief of Staff Office at Cambridge Memorial Hospital.
