

Women and Children's Program Outpatient Clinic

Important information:

- Everyone is screened prior to entering the hospital regarding symptoms, and contact within your home and community.
- If a patient or guardian does not pass screening, further discussion regarding their ability to attend their appointment must be had with management and Infection Prevention and Control prior to their entry to the hospital.
- Patients and Guardians must wear their cloth masks at all times while in hospital. Children under the age of 2 years will not be expected to wear a mask.
- Even if you come with your own mask, you will be asked to remove it and replace with a clean one provided upon arrival by our screening team. We have clean paper bags for the storage and protection of your mask.

Bili Clinic

- Only one (1) person may come to the Bili clinic with the baby
- A car seat/stroller travel system is recommended to bring baby to the clinic. If you do not have a travel system, notify the screener at the entrance to the hospital to get assistance, if required.
- If you are the banded support person and are bringing the baby to the Bili Clinic, please bring information on how often the baby is feeding and how many voids and stools the baby has had in the last 24 hours.
- You must remain in the clinic with the baby until the physician has assessed and discharged the baby.
- Please know your clinic visit may take up to 2 hours to complete. Be prepared to feed the baby while you are here.

Rhogam and Venofer Clinics

- You may not have any visitors with you at the clinic
- Once you have passed screening, you will go to Wing A, Level 4 to register.

V e n o f e r :

- You will be taken to a room where your nurse will start your procedure

Rhogam:

- After registration you will go to the lab for a blood test
- After your blood test, you will go back to the clinic on Level 4, Wing A for your Rhogam injection
- You will be monitored for 15 minutes after the injection before you can leave the clinic

Thank you for helping us keep everyone safe
